Yes. It is hard to watch this and not feel the love we, Patriots, have for our country.

Yes. It is harder to watch the fascist left take over, our beloved country.

Yes. It is growing even harder to stomach the take down of my GEOTUS.

Just this one time... I need... No ... I demand to hear our GEOTUS in the belly of the beast. I want to

...and the woman ... I want to hear him say "Yes there was election fraud and here is where it was". Chapter and verse. I want him

“ I want to hear him say "Yes there was election fraud and here is where it was".

Trump's legal team at the "impeachment" will be saying it, showing, providing evidence of it. Trump's legal people tried to lay the evidence out there one time already, but the Communist networks made sure the normies never saw it. But this time it will be (yet another) Orange Man Bad impeachment so EVERY-FUCKING-ONE will be watching it. All the progressive propaganda networks will be streaming it live.

i'm gonna need more covfefe latte to cover the chills and um...a kleenex. that was lovely, pede. i hadn't seen vid/photos of the real numbers...to see the washington monument surrounded by flag-waving, prez maga supporters warms the cockles of my heart. no wonder they put up a damn fence. it also makes me even more pissed at those screeching "riot" and "murder plots!" seriously...if that crowd had come with that intent, they'd have taken out the trash and left dc pristine.

5 That's why I posted it. I watched literally 25 hours + of videos from that day. There wasn't one that captured the magnitude of the crowd and since absolutely ZERO media covered it (except for RSNB and Epic Times and a few other alt) there really was no good footage. Then this one popped up in my feed!

1 So what you're saying is that you can prove to me, beyond a reasonable doubt, that YouTube doesn't shadow ban?

[permalink](#) [parent](#) [save](#) [report](#) [block](#) [reply](#)

▲ **CuomoisaMassMurderer** 17 days ago +1 / -0

1 Not at all what I said.

It's not that damned hard to figure out that YT doesn't imbed here. You need to click through.

Every claim I've seen of shadow banning HERE has been found out to be bogus.

YT engages in every manner of evil, along with Google, Fb, Next Door, and the rest of big tech. Fun fact: I never knew Reddit existed until I was banned from Youtube's comment section. They don't like truth. It was a great place to converse with locals from wherever an incident occurred. MSM lied every time. It was over 2 years ago when I got banned there. Took me like December to June to finally get in to TD.

The difference there. Patriots have been sitting back watching these miscreants riot/loot for many years, with very few arrests, and MSM/Hollywood applauding it the whole way. We were understandably unhappy with the blatant election fraud, but even so there was very little property damage because we respect art, architecture, and American History (because we know what it took to build those things.)

BLM/Antifa will go on a rioting/burning/looting spree like clockwork anytime a jogger pays the price for attacking Police, or just because they found out someone said something non-PC-approved 20 years ago. Of course most of them have never known a carpenter or construction-worker, they don't know where buildings come from. They don't even know where those statues they love to vandalize came from, they think they can 3d-print a life-sized statue of R. Kelly peeing on an underage girl and have it last for years in the weather.

1 This is America. Not the faggots sitting in congress, or the bigwig generals and their contracts. This is the will of the people, and I will not not allow it to be suppressed, for it is all that is left of the dream a bunch of farmers and lawyers had when they challenged the most powerful empire on earth with nothing but the clothes on their back.
